

a mixture of nitrogen, oxygen and other atmospheric gases at atmospheric pressure being ambient for location of use;

said mixture having oxygen content above 12% but below 18%;

said mixture having nitrogen content above 82% but not exceeding 87.6%.

21. The composition according to claim 20 and

said gas composition being oxygen depleted air with oxygen content [of] ranging from 15% to 17%.

REMARKS

The Examiner has requested an election to be made in accordance to requirements under 35 U.S.C. 121. The present amendment has revised all claims so that the errors are believed to have been removed.

All amended claims are believed to be in allowable condition, formal allowance is therefore respectfully requested.

Should any questions arise, the Patent Office is invited to telephone the applicant at 212-683-6998 or 917-975-6870.

Respectfully submitted,

Dated: April 23, 2001
